

Peter F. Green, Deputy Laboratory Director for Science & Technology and Chief Research Officer (CRO), National Renewable Energy Laboratory (NREL)

Peter F. Green is the Deputy Laboratory Director for Science and Technology, and the Chief Research Officer (CRO) for the National Renewable Energy Laboratory (NREL). Green began his career at Sandia National Laboratories in 1985 where he later became Manager of Glass and Electronic Ceramics Research. In 1996 he moved to the University of Texas, Austin, where he became Professor of Chemical Engineering, and was the B.F. Goodrich Professor of Materials Engineering. In 2005 he was recruited to the University of Michigan; he was the Vincent T. and Gloria M. Gorguze Professor of Engineering. Green was Professor of Materials Science and Engineering, Chemical Engineering, and Applied Physics. He was also the Director of the DOE Energy Frontier Center (EFRC) –Center for solar and thermal energy conversion (CSTEC).

Dr. Green is a former President of the Materials Research Society (MRS). He is a Fellow of the American Association for the Advancement of Science (AAAS), Fellow of the Royal Society of Chemistry (UK) and Fellow of the American Physical Society. Green earned B.A. and M.A. degrees in Physics in 1981 from Hunter College, N.Y., and his doctorate in Materials Science and Engineering from Cornell University in 1985.
