

Charles Meneveau, Louis M. Sardella Professor in the Department of Mechanical Engineering and Associate Director of the Institute for Data Intensive Engineering and Science (IDIES), Johns Hopkins

Charles Meneveau is the Louis M. Sardella Professor in the Department of Mechanical Engineering at Johns Hopkins University and Associate Director of the Institute for Data Intensive Engineering and Science (IDIES) at Johns Hopkins. He received his B.S. degree in Mechanical Engineering from the Universidad Técnica Federico Santa María in Valparaíso, Chile, in 1985 and M.S, M.Phil. and Ph.D. degrees from Yale University in 1987, 1988 and 1989, respectively. He was a postdoctoral fellow at the Stanford University/NASA Ames' Center for Turbulence Research and has been on the Johns Hopkins faculty since 1990. His area of research is focused on understanding and modeling hydrodynamic turbulence, and complexity in fluid mechanics in general. Special emphasis is placed on the multiscale aspects of turbulence, and applications to Large Eddy Simulation (LES), wind energy, and developing tools for open numerical laboratories. He received an honorary doctorate from the Danish Technical University (in 2016), the inaugural Stanley Corrsin Award from the APS (2011), the 2004 UCAR Outstanding Publication award, the JHU Alumni Association's Excellence in Teaching Award (2003), and the APS' François N. Frenkiel Award for Fluid Mechanics (2001). He is a foreign corresponding member of the Chilean Academy of Sciences, and a Fellow of the American Academy of Mechanics, the APS and ASME. Professor Meneveau is Deputy Editor of the Journal of Fluid Mechanics and served for 13 years as the Editor-in-Chief of the Journal of Turbulence (until 2015).
